5. STANDARD OPERATING WORKFLOWS & ACCESS CONTROL RULES

A. Employee Workflow (Customer KYC & Fund Transfer Submission)

1. Login using individual credentials (e.g. employee_borella / Admin@123).
2. Customer Registration: Enter Full Name, validated NIC (with instant duplicate detection), Address, Phone, and confidential Bank Account details.
3. Transfer Request: Select customer, requested amount, purpose, and choose ANY branch as funding branch.
4. Tracking & Verification: Track submitted request through 7 live statuses and view manager uploaded receipt & medical form.

* Strictly enforced rule: Employees cannot approve their own requests.

B. Branch Manager Workflow (Approvals & Document Uploads)

1. Login using manager credentials (e.g. manager_borella / Admin@123). Cross-branch visibility is automatically active.
2. Review queue of requests submitted across all 11 branches with employee ID, branch, customer, and amount.
3. Execute 1-click Approve or Reject with comments (system blocks conflicting duplicate decisions).
4. Direct Bank Payment: Execute payment and record transaction reference (CEFT, SLIPS, RTGS).
5. Upload Receipt & Medical Form: Attach signed medical form and payment receipt advice to the request.

* Managers do NOT register customers (maintained by employees).

C. Mr. Sanjay Sharma — Main Administrator (Company-Wide Oversight)

1. Login as sanjay / Admin@123. Full oversight across all 11 branches, all employees, customers, and transactions.
2. Direct approval authority over any branch request.
3. Interactive Document Viewer: Inspect both uploaded medical forms and payment receipts side-by-side.
4. Access consolidated financial reports, liquidity distributions, and tamper-evident audit history.
